Outside Plant and Right of Way

MCN can provide cable system designs for your single floor office space, multi-story building and/or campus environment. We provide excellence in design of all types of cabling projects, including copper and optical fiber systems. Outside plant services are designed to promote timely, cost effective, and seamless implementations. Our designs help ensure that you meet your demands now and in the future, without expending unnecessary resources.

MCN is proud to offer ROW (Right of way) working crews that can go out and clear your right of way's, and are able to maintain your current ones already in place. This ensures that when there is a problem, your crews or our crews can get out to the sites quickly and promptly. ROW maintenance will also help keep the trees off your lines, to keep them up and running in the middle of storms, and to easily inspect them when needed.

So when looking for Right of Way services, look to MCN Cabling, and we will provide you with the following services:

- Mulching to keep down regrowth
- Acquiring of new ROW'S
- Capital clearing or widening for new transmission lines
- All types of herbicide applications
- Heavy-duty brush mowing and side trimming
- Tower pad restoration

MCN is a full service network and telecommunications company that is capable of handling all of your corporate telecommunication needs. When an emergency arises our response crews are ready to roll out on the shortest call out time in the industry twenty four hours a day seven days a week three hundred and sixty five days of the year. Based out of Saskatoon, Saskatchewan MCN is there to provide the best service in all locations across Western Canada.
